

Articles de Simon JAMES

Des articles de revues à comité de lecture

Krakowiak, K.J., Thomas, J.J., James, S., Abuhaikal, M. and Ulm, F.-J.: "Development of silica-enriched cement-based materials with improved aging resistance for application in high-temperature environments," [Cement and Concrete Research, 105 \(2018\), 91](#).

Therond, E., Taoutaou, S., James, S. G., Way, P. W., Gomes, P., & Dondale, A. (2018, January 1). Understanding Lost Circulation While Cementing: Field Study and Laboratory Research. Society of Petroleum Engineers. doi:10.2118/[184673-PA](#).

Pyatina, T., Sugama, T., Moon, J. and James, S.: "Effect of tartaric acid on hydration of a sodium-metasilicate activated blend of calcium aluminate cement and fly ash F," [Materials 2016, 9, 422](#).

Krakowiak, K.J., Wilson, W., James, S., Musso, S. and Ulm, F.-J.: "Inference of the phase-to-mechanical property link via coupled X-ray spectrometry and indentation analysis: Application to cement-based materials," [Cement and Concrete Research, 67 \(2015\), 271](#).

Krakowiak K.J., Thomas, J.J., Musso, S., James, S., Akono, A.-T. and Ulm F.-J.: "Nano-chemo-mechanical signature of conventional oil-well cement systems: Effects of elevated temperature and curing time," [Cement and Concrete Research, 67 \(2015\), 103](#).

Ulm, F.-J. and James, S.: "The scratch test for strength and fracture toughness determination of oil well cements cured at high temperature and pressure," [Cement and Concrete Research, 41 \(2011\), 942](#).

Naglehout, A.C.G., Bosma, M.G.R., Mul, P.J., Krol, G.G., van Velzen, J.F.G., Joldersma, J.S., James, S.G., Dargaud, B., Schreuder, G.J.R. and Thery, F.: "Laboratory and Field Validation of a Sealant System for Critical Plug and Abandon Situations," [SPE Drilling & Completion, September 2010, 25\(3\), 314](#).

Ahmed, R.M., Takach, N.E., Khan, U.M., Taoutaou, S., James, S., Sassen, A. and Godoy, R.: "Rheology of foamed cement," [Cement and Concrete Research, 39 \(2009\), 353](#).

Vidick, B., James, S., and Drochon, B.: "The Search for Alternatives to Screen: Is Permeable Cement a Viable Option," [SPE Drilling & Completion, September 2008, 23\(3\), 229](#).

James, S. and Boukhelifa, L.: "Zonal Isolation Modeling and Measurements - Past Myths and Today's Realities," [SPE Drilling & Completion, March 2008, 23\(1\), 68](#).

Boukhelifa, L., Moroni, N., James, S.G., Le Roy-Delage, S., Thiercelin, M.J. and Lemaire, G., "Evaluation of Cement Systems for Oil and Gas Well Zonal Isolation in a Full-Scale Annular Geometry," [SPE Drilling & Completion, March 2005, 20\(1\), 44](#).

Pitoni, E., Devia, F., James, S.G. and Heitmann, N., "Screenless Completions: Cost Effective Sand Control in the Adriatic Sea," [SPE Drilling & Completion, December 2000, 15\(4\), 293](#).

Howard, P.R., James, S.G. and Milton-Taylor, D., "High Permeability Channels in Proppant Packs Containing Random Fibers", [SPE Production & Facilities, August 1999, 14\(3\), 197](#).

James, S.G., Schatzle, J., Tsakalos, V., Peuvrel-Disdier, E., and Navard, P., "Flow-Induced Structures in Isotropic and Anisotropic Cellulose Derivative Blends", [Cellulose and Cellulose Derivatives, 1995, 393](#).

James, S.G., Donald, A.M., Miles, I.S., Mallagh, L., and MacDonald, W.A., "Measurement of the Interfacial Tension Between Polyethersulphone and a Thermotropic Liquid Crystalline Copolyester", [J. Polym. Sci. Polym. Physics, 1993, 31, 227](#).

James, S.G., Donald, A.M., Miles, I.S., and MacDonald, W.A., "Correlation Between the Morphology and Permeability of Liquid Crystalline Polymer/Polyethersulphone Blends", *High Performance Polymers*, 1992, 4, 3.

James, S.G., Navard, P., and Noel, C., "Rheology of a Smectic Main Chain Polymer", [Rheologica Acta, 1990, 29, 368](#).

James, S.G., Donald, A.M., and MacDonald, W.A., "[Blends of a Liquid Crystalline Copolyester with Polyethersulphone](#)", *Mol. Cryst., Liq. Cryst.*, 1987, 153, 491.

Articles présentés aux congrès

Thomas, J.J. et al., "Fundamental Investigation of the Chemical and Mechanical Properties of High-Temperature-Cured Oilwell Cements," [paper OTC23668](#) presented at the Offshore Technology Conference, Houston, Texas, 30 April - 3 May, 2012.

Guinot, F., Zhao, J., James, S.G. and d'Huteau, E., "Screenless Completions: The Development, Application and Field Validation of a Simplified Model for Improved Reliability of Fracturing for Sand Control Treatments," [paper SPE68934](#) presented at the SPE 2001 European Formation Damage Symposium, The Hague, May 21-22.

James, S.G., Lee, C., Howard, P.R. and Cundall, P.A., "Interaction Between Growing Channels in Proppant Packs: Length and Number of Channels", [SPE 58756](#), presented at the SPE International Symposium on Formation Damage, Lafayette, Louisiana, 23-24 February, 2000.

James, S.G., Samuelson, M.L., Reed, G.W., and Sullivan, S.C., "Proppant Flowback Control in High Temperature Wells", [SPE 39960](#), presented at the Rocky Mountain Regional/Low-Permeability Reservoirs Symposium and Exhibition, Denver, Colorado, 5-8 April 1998.

Getliff, J., and James, S.G., "The Replacement of Alkyl-Phenol Ethoxylates to Improve the Environmental Acceptability of Drilling Fluid Additives", [SPE 35982](#), presented at the International Conference on Health, Safety and Environment, New Orleans, Louisiana, 9-12 June 1996.

Sawdon, C.A., Brady, M.E., Cliffe, S. and James, S.G., "An Integrated Approach to the Development of a Water-Based Mud With Oil-Based Mud Performance", [SPE29375](#), presented at the SPE/IADC Drilling Conference, Amsterdam, 28 Feb.-2 Mar. 1995.

James, S.G., Gorrod, P.J.B., and Forsans, T., "Well Bore Simulator Examines Drilling Fluid, Shale Interactions", *Petroleum Engineer International*, June 1993, 52.

Oakley, D.J., James, S.G., and Cliffe, S., "The Influence of Oil-Based Drilling Fluid Chemistry and Physical Properties on Oil Retention on Cuttings," [SPE23060](#), presented at Offshore Europe Conference, Aberdeen 3-6 September 1991.
